

NOTICE!

Identifying Sri Lankan Expatriate Importers and Trade Supporters

The National Chamber of Exporters of Sri Lanka (NCE) intends to establish a comprehensive network of Sri Lankan expatriates who are actively supporting Sri Lankan exports, in order to maintain regular engagement with them by providing timely information on new export products, services, investment opportunities, and on emerging Sri Lankan exporters seeking market access. They intend to facilitate stronger connections between overseas supporters and Sri Lankan businesses, thereby creating new trade opportunities.

In addition, the Chamber is exploring ways to formally recognize and appreciate the outstanding contributions made by these expatriates toward promoting Sri Lankan exports. They believe that acknowledging their efforts will not only encourage continued support but also inspire many others within the Sri Lankan diaspora to become Ambassadors for Sri Lankan products and services.

Those who fall under the said categories may send details with contact information to the Embassy (slemb.warsaw@mfa.gvo.lk) in order to share the same with NCE.
